

ED Poland
by Zygmunt Ciota

On December 04th, 2009, Wrocław, Poland took place a joint meeting of Poland Section of IEEE ED Chapter, Section of Microelectronics and Section of Microsystems and Sensors of Committee of Electronics and Telecommunication of Polish Academy of Science. The meeting started with Dr. Rafał Walczak presentation entitled "*Veterinary and Medical Lab-on-chip Microsystems*". During the discussion a development of non-commercial IC fabrication center was presented. Furthermore, the project of national design center of micro- and nano-systems based on Cadence facilities was discussed. Participants had also an opportunity to visit new high technology laboratories established in the Faculty of Microsystem Electronics and Photonics of Wrocław University of Technology.
