

ED Poland
by Zygmunt Ciota

On August 27th, 2010 took place a meeting of Poland Section of IEEE ED Chapter in Department of Microelectronics and Computer Science of Technical University of Lodz, Poland. During the meeting Prof Adam Skorek from University of Quebec at Trois-Rivieres presented a lecture entitled “High Performance Computing in Nanoelectronics”. The lecture was organized in the frame of EDS Distinguished Lecturer Program. During the meeting important topics concerning design methods of semiconductor devices were discussed. After a long and successful discussion new opportunities were presented and a new program was established for Polish-Canadian cooperation in high performance computing in nanoelectronics.

Discussion after the lecture: Prof. A. Skorek – Distinguished Lecturer, and Prof. A. Napieralski – Head of the Department of Microelectronics & Computer Science
